

**Convenient access with fingerprint scanner**

**Make your front door a smart experience**

## A smart home starts at the front door

With the **ekey dLine fingerprint scanner**, ekey is revolutionizing access to the building. You will experience a new feeling of comfort and enjoy more flexibility in your everyday life. You benefit from a digitized bunch of keys and your front door opens at the touch of a finger.

The ekey dLine offers you an intelligent access control system that – already today – is meeting the wishes of tomorrow.

- Keyless access
- Convenient remote opening
- Automatic push notifications
- Practical virtual assistant
- and much more

**Now is the time to enter the age of biometric access control systems!**

### Smart features of the ekey dLine

## Your finger as a key

“I can finally leave the house without a key. This is particularly useful for outdoor activities such as cycling or jogging. I always have my hands free and just open our front door with my finger!”

### Your advantages at a glance

- Impossible to lock yourself out – your finger is always on hand
- The ekey dLine fingerprint scanner learns with every use
- The growth of children's fingers is automatically recognized
- Convenient access for the whole family (children from approx. 6 years of age)
- Dirt or minor injuries on the finger are not a problem

## Maximum security

“Thanks to ekey, we no longer have to worry about our children losing their keys or giving our access code to their friends. We just open our front door with our finger and are thrilled. With ekey, we’ve gotten carefree and secure access to the house for our whole family.”

### Your advantages at a glance

- Maximum protection against forgery
- No disclosure of access codes
- Only authorized persons can open the door
- 1,000 times more secure than a 4-digit number code
- No more misplaced, lost or stolen keys

## Flexibly expandable system

“It was clear to us from the start that we would like to have a front door with the ekey dLine fingerprint scanner. We are now planning the extension of our existing system. We also want to open our garden gate and our cellar door with our fingers. It couldn't be more practical!”

### Your advantages at a glance

- Add functions, users, and devices as needed
- You don't have to define the scope of your access system in advance
- You can control different functions with different fingers

## Remote opening

“Key has definitely made my everyday life easier! For example, I can now let the handyman into the house even though I'm not at home yet. So I don't have to rush home to open the door for him. The handyman can start work right away.”

### Your advantages at a glance

- Unlocking on the go
- More flexibility in your everyday life
- No more tedious drives home to unlock your door
- Everything under control with one app – even from a distance

## Push notifications

“ Thanks to ekey, I no longer have to worry whether my child has arrived home safely from school. I automatically get a message on my smartphone as soon as my young daughter has unlocked the door with the fingerprint scanner! ”

### Your advantages at a glance

- Always well informed – even when out and about
- Notification on your smartphone when the door opens
- Rest easy knowing that your loved ones have arrived home safely

## Virtual assistant

“When we cook for our friends, we have enough to do in the kitchen. We're glad our front door is connected to Alexa. That way, we can unlock it at any time by voice command and don't have to walk to the door when our guests ring the bell.”

### Your advantages at a glance

- Open the front door conveniently with a voice command
- No need to rush to the door every time the bell rings
- No need to open the door with dirty hands
- Open the door with ease, even when your hands are full

## Personalized time slots

“It’s really useful to be able to determine exactly who is allowed into our house and when. That way, everyone only has access when they really need it. I can also use the app to see who was there at what time.”

### Your advantages at a glance

- You determine who enters your home and when
- Access log shows all activity over the past 30 days
- Easy to enable and disable users via the app
- Temporary access authorizations possible

## ekey makes your everyday life easier

Convenient access

Smart technology

Easy operation

Modern design

Maximum security

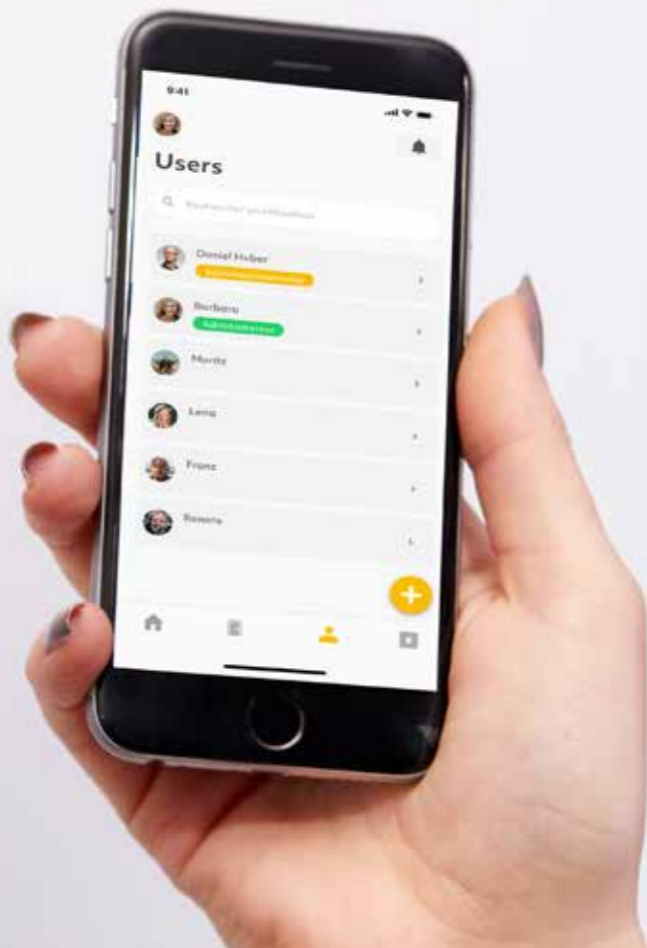

Weather resistance

### Further advantages of the ekey dLine

- **Your access to the smart home**  
Thanks to the ekey dLine, intelligent use of a building begins at the front door for the first time.
- **More comfort at the front door**  
Your front door is finally getting smart, and the ekey dLine gives it new, practical functions.
- **A system tailored to your needs**  
The ekey dLine can be expanded with additional devices, users, and functions later on.

## The ekey bionyx app

The ekey bionyx app is your control center for building access. Using a smartphone or tablet, you can assign authorizations for family, friends or external service providers in just a few clicks. In addition, time slots can be defined which restrict access to specific individuals to certain times of day and days of the week.

### Trigger smart functions using the app:

- If necessary, you can open your front door remotely – e.g. to let the craftsman or neighbors water the flowers in the house – whether from the office, on the go, or on vacation.
- As soon as the door has been unlocked using the ekey dLine fingerprint scanner, a push notification is sent to your smartphone. Parents can rest assured that their child came home safely from school.
- The connection to Alexa, the Amazon virtual assistant, provides additional convenience at the front door.

### Features of the ekey bionyx app

## Welcome to ekey

**ekey was founded in 2002 and is now Europe's No. 1 for fingerprint scanner access solutions.**

ekey puts authorization into the customer's hands! Aids such as keys, cards, or codes can be lost, forgotten or stolen – your finger is always with you. ekey's product range includes fingerprint scanner solutions that open doors and gates and control alarm systems and smart home systems.

**More than one million satisfied users are the best possible recommendation for our products!**

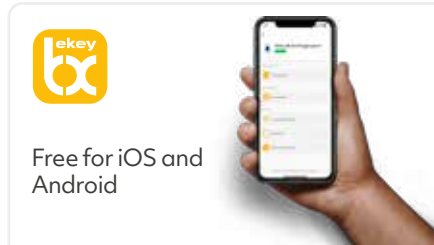

Both private households as well as leading companies, along with organizations such as fire and rescue services, have been putting their trust in ekey for many years. Our formula for quality consists of the highest standards of functionality, reliability, and security. This is continuously refined through intensive tests.

## Enter a new age!

Thanks to the ekey dLine, you get secure and keyless access to your home. The front door becomes smart and receives new functions that inspire you in everyday life.
